SMOKE WAGON BOURBON
LAS VEGAS

SMOKE WAGON STRAIGHT BOURBON

The goal was to create an affordable everyday bourbon that had that unique and unmistakable Smoke Wagon flavor, consisting of delicate sweet notes with a rye spice finish. Like all of our expressions, this entry level offering is non-chill filtered and consists of our expensive 36% small grain, high rye mash bill. This one is beautifully fruit forward, easy drinking bourbon! It has been described in multiple reviews as exceptional but an absolute steal and the best bourbon for the price!

SMOKE WAGON UNCUT THE YOUNGER BOURBON

We took the same philosophy used to create a superior, affordable bourbon.. then didn't add any water. Uncut, non-chill filtered, fruit forward with lots of candy flavors, cinnamon spice, and plenty of heat. Blended consistently of mainly 4 year 36% rye bourbon from several floors and warehouse locations. The finish is buttery and creamy, drinking more delicately than one would think based on its proof.

SMOKE WAGON SMALL BATCH BOURBON

Our first bourbon and where vintage blending began! Rye ages faster than corn, and the only way to achieve the beautiful fruit forward complexity of this expression is by combining multiple vintages. The younger vintages bring the fruit, big rye spice, and buries the harsh oak. The older vintages create a creamy mouthfeel as well as adding rich caramel and deep sweet notes. The finish is bold enough and at 100 proof there's enough flavor and heat to ensure it'll shine through any cocktail

SMOKE WAGON UNCUT UNFILTERED BOURBON

We took the same vintage blending philosophy that we used to create small batches, except this time the goal was to create high proof bourbon that tasted its best neat. Uncut is so rich and sweet with an unbelievably thick mouth feel. The heat and rye spice finish are a welcome addition. Blending vintages of our high rye mash bill to achieve this flavor profile at 115-116 plus proof was a very rewarding challenge for us. There is a delicate balance between creamy mouthfeel, tannins, and sugars that comes into play and makes the end result magical.
